### HALF SICK, HALF WELL WHY HUN SPIES

A Condition That Will Not Improve Upon Itself.

In the Spring the depressing condi-tion that many call Spring fever often runs through families and neighbor-hoods.

This indefinite, hard-to-describe state of poor health probably means that you are thin-blooded and anemic. Exhausted thin blood gets thinner, low vitality falls lower, poor appetite be-comes poorer. Then the thoroughly exhausted system can no longer resist,

exhausted system can no longer resist, and on comes the prostrating illness or serious disease.

Treat the half-sick, Spring-tired condition with that splendid course of medicine—Hood's Sarsaparilla, to fortify the whole body; Peptiron, to ironke and make rich red blood; Hood's Pills to rouse the liver to its regular daily duties,—and the half-well revives to perfect health. Each medicine is valuable in itself but is trebly so when used in this combination.

Congress to Blame-Legislation Asked Three Months Ago as to Pro-Germans.

DELAYS ARE CULPABLE

Appeal of Executive Branch of Government Passed Over as Members Wrangle.

(By David Lawrence.) (Copyright, 1918, by New York Eve-ning Post Company.)

Washington, March 30 .- Whenever something goes wrong with the war machine, inevitably the critics assail the executive branches of the government.

Somebody is a pacifist or hasn't his heart in the war or is temperamentally untit or hasn't been a republican or a democrat, or a business man or some thing else. Congress is such a complithat the senate and house can go along wasting their time on irrelevant mat-ters at the expense of urganity needed legislation without much being said about it.

Moreover, there is no particular person to hold responsible; thereore, no one is held responsible. But the neglect of important legislation in the past few weeks is one of the most depressing things about the ability of our democratio government to compete with the smooth-working machinery of our enemies.

Female Spy Deadliest.

Most people imagine, for instance, that when the attorney-general asked for legislation three months ago to punish female spies—for the female of the species a more deadly than the congress would of course not hesitate to grant the request, but the woman spy were caught she could not given severe punishment.

Most people imagine that when the executive branche of the goverment appeals to congress to give it sufficient laws to punish pro-Germans, engaged in insidious efforts to interfere with the sale of liberty bonds, of course such leg-islation would be promptly passed. But bills amending the espionage act to cover such cases are still pending. And the liberty loan campaign opens on April 6. The request was made last January.

Most people imagine that if a man puts bombs on American transports carrying American boys to Europe, and he is caught doing this, of course he can be shot at sunrise or hanged or electrocuted. But the fact is he cannot get more than about eighteen months in jail and a \$2,000 fine.

Herr Von Rintelen, master German agent, was caught in such a conspir-acy, but the only statute on which he could be prosecuted was interference in interstate commerce. The bills providing for severe penalties have not

Most people imagine that when there are big fires and destruction of American property in munition plants and war factories, swift and condign punishment can be meted out to offenders. But there is no federal law to punish arson or the bombing of American ships by the placing of explosives aboard, and the destruction of government property can be carried on with-out fear of serious consequences

to the offenders. For this congress is to blame. Also, the department of justice has wanted a law wherewith to prevent anyhody from entering or leaving the United States without a passport, so that exceptions could be made only in the cases of individuals engaged on legitimate errands and so that all others attempting to enter or leave might come within federal jurisdiction. But no such law has been granted, though it was first sought last December,

Dilly-Dallied Over Others. Turning to the war department, the provost marshal's office has been embarrassed by inability to get the leg-islation it has been requiring, the reg-istration of boys reaching the age of 21 since June 5 last and hereafter Similarly consideration of the so-called quota, bill enabling the war department to fix the number of men it can ge

#### YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TONIGHT

Don't stay headachy, sick, or have bad breath and sour stomach.

Wake up feeling fine! Best laxative for men, women and children.

Remove the liver and ower poison which is keeping your head dizzy, your tongue coated, breath ficusive and stomach sour. Don't stay bilious, sick, headachy, constipated and full of cold. Why don't you get a box of Cascarets from the drug store and ent one or two tonight and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced? You will wake up teeling fit and fine. Cascarets never gripe or stoken like saits, pills and calonel. They act so gently that you hardly realize you have taken a ca-

out of class one is delayed. This military legislation is of an urgent character-presumin , of course, that Premier Lloyd George's appeal for American troops, read by Lord Reading, received the attention which it deserved. President Wilson has been asking for

authority to consolidate war bureaus and divisions-not additional power by any means, but law enabling him to distribute and make flexible such executive power as he has to permit the cuttin, of red tape and the removal of legislative restrictions that have ham-pered freedom of action. Col gress has dilly-dallied along on that, too.
Other measures that ought to be acted upon promptly is the federal amendment for woman suffrage, which has been passed by the house and is before the senate, nersures, too, as the price fixing bills and kindred

feel that congress is really looking out for their interests. But instead, time is given to political discussion, and time is taken to listen to the back-stairs gossip and attacks on Gen. Pershing through the medium of returning generals who have axes to grind Time is given to listen to digrun-tled contractors who haven't made war pr fits enough, to constitu-ents who are seeking commis-sions, promotions, government jobs and things of that sort.

Congress Only Medium.
The trouble is that about the only rganization in Washington that is trying to get along by peace-time methods is congress. What the senate and house need is a war cabinet, or council, or priority committee, or accelerating machinery of some kind even if it means a redistribution of committee assignments or committee meetings, so that members who are or more than one committee can ge around to such sessions or permit others now on unimportant committees to get into the war game, too.

The executive branches of the gov ernment have plenty of weak spots but the country ought to know something about what is happening in its national legislature, its only effective medium for the expression of the will

AMERICAN TELEPHONE GIRLS AT POSTS IN FRANCE

Thirty-three Operators Who Speak Both English and French Assigned to Duty.

March 30 .- Thirty-three American telephone girls, who speak English and French equally well, have just arrived to opegate the switch-boards in the various army headquarters. They have been divided between the principle army centers, Paris, Gen. Pershing's headquarters in the field and the headquarters lines of communication.

American officers have been pleassurprised when taking up the "number, please," or "line's busy," in-stead of the usual French equivalent. Although the French telephone equipment is not as modern as that America, the girls are fast becoming used to it, and officers remark that they already notice an improvement in the telephone service.

#### PRIMARY FOR BLEDSOE **FIXED FOR APRIL 13**

Candidates for Various Offices Announced and Full Ticket to Be Put Out.

(Special to The News.)
Pikeville, March 30.—Mindful of the fact that even though we are engaged in a war to the hilt, civil affairs must tinue to function, and in conformity to this condition the republicans of Bledsoe county will hold a primary election on April 13 to select candidates for the county offices which are to be chosen by the people in August. The following are candidates in the primary: T. Y. Swafford for sheriff, incumbent, no oplegislation that would make the people ponent; Harmon Hale, for trustee, no opponent; Peter Angel, for county court clerk, incumbent, no opponent; George McWilliams, for circuit court clerk; R. L. Robinson, W. A. Barber and J. H. Put-nam, for county judge. As will be seen, the only contest is for county judge. Mr. Robinson is the present judge, and

candidate for re-election.

It is intimated that the democrats will not present a partisan front at this time, considering the fact that there is enough war in Europe without indulging in one at home. However, Mr. McWilliams, the republican candidate for circuit court clerk, will have opposition in the person of F. S. Ferguson, who is the incumbent. While not courting a partisan contest, Ferguson will run principally upon his personal record and merits. While the county is normally republican by nearly two to one, Mr. Ferguson has carried the county three times twice as its sheriff and once to the office he now fills.
